

A Kid's Birthday in a Recycled Garden

P R E S E N T E D B Y

King County Commission for
Marketing Recyclable Materials

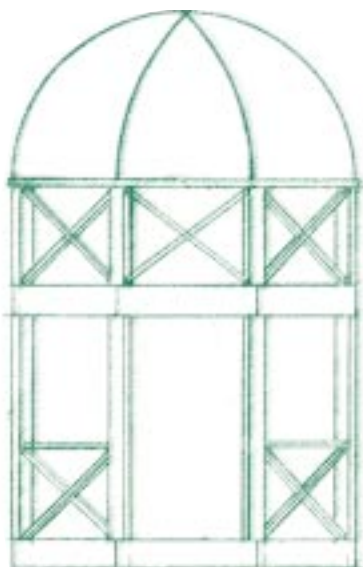

F E B R U A R Y 2 0 0 0

We're celebrating **Many Happy Returns** in our special kids' garden and invite you to join us! There's a lot of fun stuff to do here, and if you look very carefully, you'll find something unusual about almost everything in the garden—it's made from recycled material!

Have you ever wondered what happens to that glass bottle you put in the recycling bin? Look under your feet to see patio pavers made with recycled glass. Or how about the paper you recycle? Take a look at those neat pots on the potting bench

—that's what they're made of! Look around the garden and read further to learn about all kinds of things that got their Many Happy Returns through your recycling, and are just waiting to find a second home with you!

Visit booth #601 in the commercial area for a closer look at these products. And for more information, visit our web site at www.metrokc.gov/market

Observatory featured in our garden
